Summary

Motivated Java Developer with strong knowledge of Core Java, Object-Oriented Programming, and Data Structures. Experienced in building backend applications using Java, Node.js, and database technologies such as MySQL and MongoDB. Passionate about solving algorithmic problems and developing scalable software solutions.

Professional Experience

- Software Development Intern, Texsonics Pvt India Ltd** 07/2025
Worked with Qt Creator to develop basic applications for controlling and monitoring electrical systems. Gained practical experience in system interface development, control logic implementation, and real-time system monitoring.
- Automation Systems Intern, ECI Systems** 01/2025
Worked on automation system development and gained hands-on experience with industrial control components and system integration. Contributed to testing, monitoring, and maintaining automated processes.

Education

- B.E Mechatronics Engineering (CGPA: 8.57),** 09/2023 – 05/2027
KPR Institute of Engineering and Technology Coimbatore, India
- HSC (Percentage: 94.6), ARC Matric. Higher Sec. School** 06/2021 – 04/2023
Coimbatore, India

Technical Skills

Languages Java, JavaScript, Python (Basics)	Frontend HTML5, CSS3, JavaScript, React.js
Backend Node.js, Express.js	Database MongoDB, MySQL
Tools & Platforms VS Code, Git, GitHub	Concept Object-Oriented Programming (OOP), Data Structures, Algorithms, REST APIs

Achievements

- Won 1st prize in Sherlock in Silicon Valley (AI event),** *Kumaraguru College of Technology*
- Solved 240+ problems in leetcode and HackerRank**
- Won 1st prize in Botify (Line Follower),** *PSG College of Technology*

Projects

- Student Result Management System, Java | MySQL | JDBC**
Developed a Java-based Student Result Management System using JDBC and MySQL to store and manage student academic records. Implemented database connectivity for efficient data storage and automated grade calculation with result report generation.
- Task Manager Web Application, Node.js | Express.js | MongoDB | HTML | CSS | JavaScript**
Developed a full-stack task management application that allows users to create, update, and delete tasks. Implemented REST APIs using Express.js and stored task data in MongoDB. Designed a responsive user interface for efficient task tracking.

Certifications

Python Basics HackerRank	Higher Diploma Computer Application CSC	Full Stack Development Navodita Infotech
